CAMERA
Used 35mm SLR camera with manual aperture and shutter speed exposure control.
Lens: 50mm or 35mm focal length, manual focus fixed lens.
No automated point-and-shoots! No zoom or autofocus lenses!

Download our Recommended 35mm SLR Cameras list from http://arts.columbia.edu/photography

PHOTO PAPER
Ilford Multigrade Fiber Classic Glossy 8x10" sheets in a box of 25 or 100.

DO NOT BUY: RC Resin Coated Paper or Non-Glossy Matte Surfaces

WARNING: Ilford labels look alike. Check that the entire name matches: MGFB MULTIGRADE FB CLASSIC GLOSSY. Label is green & pink.

Paper is light sensitive and can only be opened under the safelights in the darkroom!

OTHER SUPPLIES
• PrintFile Negative Pages (CP35-7HB or CP35-7B) pack of 25 for storing film
• 12x18" Blotter Books (buy 2). You must have your blotter book in order to take home prints from the darkroom as you leave.
• Pencil for making exposure notes on the back of prints before placing in the chemistry
• Scissors, for cutting film.

Note: There is usually a pair in the darkroom

http://www.bhphoto.com
(212) 444-6750
Monday—Thursday: 9am–7pm, Friday 9am–2pm, and Sunday 10am–5pm

For Cameras:
Both K&M Camera and B&H Photo have used cameras for sale. Make sure that they are providing any battery that you need for the camera to function and before you leave the store ask them to show you that the shutter speeds work in a range from 1 second to 1/125th of a second. Inspect the camera for damage. Compare it to other cameras they have.

KEH.com Excellent online retailer with great reputation, prices, and shipping. Avoid cameras rated in “Bargain” condition.

K&M and B&H also sell used SLR cameras. Check the Recommended 35mm SLR Camera guide for the list of Cameras To Avoid.

eBay WARNING: eBay has wonderful deals but is not a wise choice for class. You need a camera shipped immediately and you will have no recourse if camera is defective. Dealers listed above will swap out defective cameras.
